Kerri Mark Sharp

Web Developer

I specialise in web development, with a focus on cross-platform compatibility and attention to detail. I always strive to provide the best user-experience. I approach each project with enthusiasm and a willingness to learn. I am an excellent problem solver and fast learner with a keen eye for detail. My career highlight to date is a talk I gave at Frontend NE: <https://frontendne.co.uk/talks/responsive-email-frameworks-how-why>

Experience

Frontend Developer, Drew London. 2017–Present.

As lead frontend developer, I ensure our websites both look and perform exceptionally. I use PHP (WordPress), HTML5 (Shopify), SASS/CSS3 & Javascript/jQuery to instigate pixel-perfect websites from Photoshop/Sketch designs for our clients. I have recently performed an extensive re-work of the agencies own website as well as working on customer-facing sites for Drugline, Emmy London & STL Partners.

Web Developer, Opia Ltd. 2016–2017.

As part of an experienced team of developers, I delivered and maintained customer-facing applications for blue-chip clients including Exxon, Samsung, HP, LG, Microsoft, Sony, ASUS, Fujifilm, Kodak and more. I used Laravel PHP with a test-driven, MVC approach to ensure my code was readable and DRY. Within the company, I championed frontend design, using SASS CSS, HTML5 and VueJS to design responsive, dynamic websites.

Web Designer / Developer, Sleeky Web Design & Print. 2016.

My development work included updating / creating websites from scratch using PHP, CSS & HTML5. I created web content for clients with WordPress and OpenCart. I was also responsible for operating social media, writing blog posts and SEO content for clients.

Competencies

PHP (Laravel, MVC, OO, WordPress), HTML, Bootstrap, CSS/SASS, MySQL, Javascript (VueJS, jQuery), Foundation & MJML Email, Gulp, Docker/Vagrant, Jekyll, Adobe Suite.

Typing speed: 95 wpm.
